Instructions for applicants on handling personal data in the application process for a U.S. visa via The American Dream - U.S. Visa Service GmbH

The U.S. authorities use a central electronic registration form for the application of all visitor and non-immigrant visas to the United States. This form is called DS-160 and is mandatory for all applicants to complete. The information that must be provided on this form is very complex and varies with the visa category applied for.

Within the framework of the contract concluded with us, The American Dream - US Visa Service GmbH requests this required data for the specific application from the applicant with the help of a question mask created by us in the form of a PDF document or electronic form in a simplified form in German/English.

This data collected here is used exclusively for the preparation or completion of the DS-160 online form of the U.S. authorities and is not recorded in the master data of the customer database of The American Dream - US Visa Service GmbH. Upon completion of the order or successful issuance of the visa, this specific customer data is deleted.

The transmission of the online application form DS-160 to the US authorities is carried out independently by the applicant himself. The American Dream - US Visa Service GmbH takes care of all preparations in the application process and then submits the online application to the applicant for review and electronic confirmation, who then sends it directly to the U.S. authorities.

We will then no longer process your personal data. Unless we can demonstrate compelling legitimate grounds for processing the data that override your interests, rights and freedoms, or the processing serves the assertion, exercise or defence of legal claims.
